

Our Process

Register

To register with HireQuality Solutions, create a profile and submit your resume via our website. You may do this from your own computer or from our office at the time of your interview. Once your information has been submitted, our consultants will review it and when we have a job opportunity that fits your skills, we will contact you to schedule an interview.

Interview

Remember, this is an actual interview and first impressions are very important! Please arrive 10 minutes early to fill out any appropriate paperwork. You will meet with a consultant to discuss your previous work experience and your goals. At that time, we will try to answer any questions you may have. Based on the consultant's recommendations, you may be asked to complete testing appropriate to your field of expertise. Testing is a useful tool which assists us in finding the right fit for you and for the client as well.

Job Opportunities

Upon completion of the testing, if the consultant has an opportunity that fits your skill set, you will be contacted within a few days. All information you send to us will be held in the strictest confidence. Under no circumstance will representation be made on your behalf without your prior authorization. Once your information is presented to the client, our consultants will act as the liaison between you and the hiring manager. Our consultants are here to assist you through the entire interview process; critiquing your resume, preparing you for the interview, accepting the offer, ----and giving your resignation.

***There are no fees associated to the candidate for using our services.**
